The Department of Veterinary Large Animal Clinical Sciences in the College of Veterinary Medicine & Biomedical Sciences at Texas A&M University invites applications for a full-time, clinical-track temporary lecturer position (non-tenure) in Equine Theriogenology. The position is for a minimum duration of two (2) weeks (ten business days) during the months of February, 2021 through May, 2021. Applicants are required to have interest, experience, training and expertise in equine theriogenology. Candidates must have a DVM/VMD, or equivalent degree, and must be eligible for licensure in the state of Texas, licensed prior to employment.

The successful candidate will be expected to independently and collaboratively contribute to the teaching, research, outreach/service and patient-care missions of the College of Veterinary Medicine & Biomedical Sciences. Two equine theriogenology residents share clinical, research and teaching responsibilities. The Service provides full service mare and stallion fertility assessment/management as well as advanced assisted reproductive technologies and mail-in assessment of endometrial biopsies and semen. The successful candidate will provide clinical teaching to fourth-year veterinary students.

Contribution to the education of equine theriogenology residents is a high priority. The successful candidate is expected to provide mentorship towards all aspects of resident training as preparation for ACT certification.

A complete job description may be found here. Additional information about the department is available on our web sites (College of Veterinary Medicine, Large Animal Clinical Sciences, and Large Animal Hospital).
